ABOUT US

OUR ORGANISATION

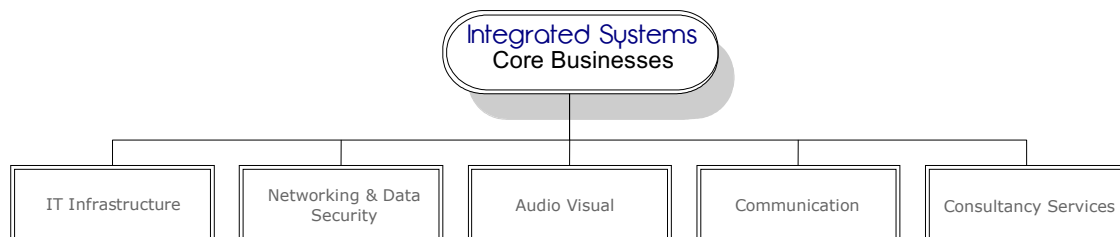

Integrated Systems LLC is an independent locally owned company, established as a multi-division organisation in 1996 in the Sultanate of Oman.

The company is managed by a professional and highly experienced team focusing on fulfilling the technical and IT needs of major governmental, industrial and commercial potential of Oman.

- ❖ Our mission, vision, goal and motto are entirely dedicated towards a successful long-term partnership with customers aiming to be partners in progress.
- ❖ Our obligation is to provide the Omani market (**Government & Corporate**) with state-of-the-art Technologies, Support and Services.
- ❖ It has been an exciting time to be involved with the industry and we are looking forward to the coming years and being able to provide systems and products to meet the demands of the future.

In our sales activities with solutions, we are frequently asked the question, *Why should I buy a system or a product from Integrated Systems?*" It is a very legitimate question which we would be happy to answer.

- ❖ To begin with, we offer various solid products that has been developed or sourced based on our years of experience in the industry. It works, and it works well. Our users tell us that it has contributed greatly to the success of their business and we think that is one of the highest compliments that we can receive. The products got to this level because we listen to what our user base has to say. In affect, our users are responsible for the success of the product because it is designed to fit their needs.
- ❖ We are a teamwork company that works hard at building long-term relationships. Customers who signed with us in 1996, our first year in business, are still customers
- ❖ We have a staff of dedicated professionals who understand your business. Many of them come from the solution industry. Our continuing training programs keep them up to date with technology as well as with changes in the industry itself. They are dedicated to getting your systems, hence you, up and running. We are proud of our entire staff because we think they are the best in the business and they work hard to keep this aim as well.

OUR VISION

Building long lasting relationship with customers through excelled service and support along with investing on our employees seeking after loyalty of both.

OUR MISSION

Integrated Systems (IS) is a full service company providing IT infrastructure, networking & data security, audio visual, communications and consultancy services expertise. It offers complete

solutions customized to meet the generic and specific needs of the clients, and includes design, installation and superb after sales service.

ISC does not compromise delivered quality and exceptional value for money, empowered by technical staff and expertise to handle projects of any size and scope.

ISC believes that delivering cost-effective high quality products and services with outstanding after sales service will lead into total customer satisfaction and guarantee the long-lasting relationship with customers.

Our aim is to be one of the leading solution providers and system integrators with innovative initiative, unique offering, steady growth and regional presence supported by loyal customers and employees.

You progress and leave us the hard work. We love what we do. We work at making sure you will remain a loyal customer.

APPROACH TO MARKET

The philosophy behind every strategy and decision is to meet and exceed customer expectations by addressing his specific requirements and needs whenever necessary to tailor the offering to his environment.

- ❖ We at [Integrated Systems](#) endeavor to be reputable and a profitable organisation as well as a leader in the unique information technology in Oman, this is our vision and goal. The same is not possible without the trust and patronage of our customers.
- ❖ We believe that the future of the information technology lies in an integrated solution driven approach to computing and communication hence on the best interest of our customers, we have adopted to offer products and services aimed at enterprise wide integration based on the principles of Open Solutions.

TOTAL CONCEPT

World economy today is driving the market towards a flexible structure and electronic automated technology-ready organisations, high technology education, and a firm commitment to automate and right sizing.

For an automated system to be effective, it must reflect the culture and structure of the organisation. Therefore, it is important to respect the established structure while adapting and developing procedures at the same time to ensure an optimal solution. An automated system must be capable to grow with the company and anticipate future technological development.

INTEGRATED INFORMATION SOLUTIONS

With a vision towards enterprise wide integration, we aim to provide an integrated suite of quality products and services to meet the varied requirements of our clients, our services can be scaled up from basic resource to full-managed services and products:

- ❖ Consultancy Services.
- ❖ Systems Design, Integration, and Implementation.
- ❖ Software and Hardware Technical Support.
- ❖ Out-Sourcing Services.
- ❖ Infrastructure and Hardware Supply.
- ❖ Project Management.

In the IT field, we consider ourselves as **Solution Provider** and **Systems Integrator** based on many hardware/software platforms, where we apply latest standards and techniques to implement open systems solutions based on Client/Server and virtualized architecture.

We have a team of developers/consultants dedicated to help and provide customised solutions based on our customer's requirements.

QUALITY

Quality is a way of life at **Integrated Systems**. The driving factors for the quality service at our company are built around **Analysing Customer Needs** then **Undertaking Proper Corrective Action(s)** before **Delivering the Solution**.

Great emphasis has been placed on formalization of needs in all areas of operation enabling the organization to handle mission critical projects. We are dedicated to deliver the highest quality of services and products compliant with worldwide standards.

CONSTRUCTIVE PARTNERSHIP

We believe in being a partner in the growth of the customer and to offer him state-of-the-art solutions, we believe in a long-term relationship than a short-term approach.
